Jewellery for children and teenagers of all ages that represents a perfect balance between style, sustainability and well-being. Ideal for those who want to wear earrings and fashion accessories without the hassles of allergies. The raw materials used (such as 304L or 316L stainless steels) are non-toxic, nickel-free alloys, safe and compatible with the human body.

The experience gained in the field of sustainable fashion has allowed us to develop a line designed exclusively for distribution in the pharmaceutical sector, in compliance with the regulations and criteria required.

The protection of the skin and the prevention of allergic reactions and skin irritations is the main objective.

All products are classified as hypoallergenic to reduce the risk of skin sensitization.

The galvanic finishes in pink and gold tones are made in compliance with the European CE regulation, which regulates the use of potentially harmful or sensitizing substances (such as Cadmium, Nickel and Lead).

Each item is subjected to periodic tests at specialized centers recognized at national level, to guarantee the safety and color stability of the alloys used.
